[LINKS TO GitHub, Portfolio and LinkedIn](#)

Solutions-driven Back End Web Developer applying IT background and strong technical skillset towards building functional server-side applications. Extensive experience in customer service with a track record of positive client relations. A strong foundation in the beverage industry with several years dedicated to craft beer. Outgoing, adaptable and reliable in all arenas.

---

**Technical Skills** (In your revisions, I would like your Technical Skills section to be dedicated to hard skills that you have acquired from the Bootcamp and previous experience or education and should ONLY list the technologies you have proficiency in. Note: Soft skills and foreign languages are not included here and should be incorporated into the career summary.)

**Languages:** JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

**Applications:** GitHub, MongoDB, MySQL

**Tools:** Express, React, Node, Handlebars, Query, Bootstrap

---

**PROJECTS** (One section that is vitally important to include in your resume is a projects section where you demonstrate your proficiency in the technical skills that you have listed so that potential employers can see that you are career-ready. Feel free to include projects that were completed in the Boot Camp. Projects should showcase you as a professional, so any reference to “homework,” “project,” or “assignment” within the project description, title, or link should be removed and replaced with the app or project’s name. We recommend you aim to include 3 projects in your resume.)

**Lisa Botalico, Flamenco Dancer! | Written URL to GitHub | Written URL to deployed project**

- Summary: Promotional site for the great Flamenco dancer Lisa Botalico
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Bootstrap, GoogleFonts, Photoshop
